1. The referenced memorandum refers to a proposal considered by the Project Review Committee to provide dehumidified storage space at [REDACTED] for the Office of Communications, and requests this Office to study and submit a report as to whether additional dehumidified space is required.

2. The proposal provides for 5,000 square feet of dehumidified storage space plus aisle space for storage of communication equipment, and further requests authorization of \$50,000.00 to modify an existing building and install chemical dehumidifying and auxiliary equipment. The existing building to be modified is 60' x 160', i.e., 9,600 square feet.
